It is always important for me to know your opinions on various issues related to state government. It is even more vital now with a new governor in the Statehouse, the long legislative session complete and the short legislative session now under way.

## Making Progress

Rep. Reske

In the past session we acted on various items that everyone agrees are in the best interests of our state—increased economic development efforts, a streamlined approach to regulation of small businesses, more caseworkers on the job to combat child abuse and a vigorous response to the growing problems of meth.

## Future Concerns

Last year I opposed the new state budget. This budget has resulted in large property tax increases across Indiana while forcing many local school corporations to enlarge class sizes, slash personnel and cut programs. One of my goals this year is to eliminate this property tax increase.

## Your opinion counts

I anticipate several important proposals will emerge in the next few months and I need your opinions. I encourage you to complete the survey to the right and mail it to my office.

I look forward to hearing from you.
